

CURRICULUM VITAE · OCTOBER 2026

Ronaldo de Carvalho Augusto, PhD

Junior Professor Chair (Chaire de Professeur Junior) in parasitology and epigenetics

IHPE – Interactions Hôtes-Pathogènes-Environnements, UMR 5244 · Université de Perpignan Via Domitia
58 avenue Paul Alduy, Bât. R, 66860 Perpignan Cedex, France

EMAIL ronaldo.augusto@univ-perp.fr PHONE +33 4 68 66 20 50 ORCID 0000-0003-1147-0043

28	2	11	€1.6M	5 + 1	6
peer-reviewed articles	book chapters	funded projects since 2022	secured (€310k as coordinator)	PhD students co-supervised, 1 postdoc	Master's students supervised

EXPERTISE Parasitology · epigenetics (ChIP-seq, ChIPmentation, ATAC-seq) · RNA-seq · 2D proteomics · Ribo-seq · SEM/TEM/SEM-EDS · confocal microscopy · snail and mouse models · R and Galaxy · One Health

LANGUAGES Portuguese (native) · English (fluent) · Spanish (fluent) · French (professional)

PROFILES Google Scholar · ResearchGate · HAL · LinkedIn · IHPE page

Research profile

I study how environmental signals shape the development, virulence and transmission of parasites and their hosts, using *Schistosoma mansoni* and its snail vectors (*Biomphalaria*, *Bulinus*) as models. My program links molecular mechanisms – chromatin, histone marks, non-coding RNAs and miRNAs – to life-history traits and transmission, under the chair theme “Tropical diseases of today, European diseases of tomorrow”.

Three pillars structure the program and my HDR in preparation (ED 305, UPVD):

1. **Environmental drivers of virulence and plasticity:** freshwater contaminants (bisphenols, PFOA, microplastics), including transgenerational effects on *S. mansoni* fitness and transmission.
2. **Mechanisms of virulence and disease severity:** *Plasmodium–Schistosoma* co-infection, infection chronology and host pathology; epigenetic control of development and sexual maturation.
3. **Vector competence and transmission:** snail–trematode functional genomics (miRNAs, circadian genes), near-infrared spectroscopy for snail diagnostics, and One Health epidemiology in Brazil, Mozambique and Benin.

Academic positions

2022 – present	**Junior Professor Chair (CPJ, tenure track)** IHPE UMR 5244, Université de Perpignan Via Domitia, France
2021 – 2022	**Research Associate (postdoc)** Division of Microbiology and Immunology, Dept. of Pathology, University of Utah, USA · Dr Keke Fairfax
2019 – 2021	**Research Associate (postdoc, INSERM)** LBMC, École normale supérieure de Lyon, France · Dr Emiliano Ricci
2016 – 2019	**Research Associate (postdoc), Wellcome Trust FUGI** IHPE, Université de Perpignan Via Domitia, France · Dr Christoph Grunau
2011 – 2020	**Independent environmental consultant** Freshwater quality monitoring for hydroelectric dams, Brazil

Education

In preparation	**Habilitation à Diriger des Recherches (HDR)** ED 305, Université de Perpignan Via Domitia
2016	**PhD in Science (Parasitic Biology)** Instituto Oswaldo Cruz, Fiocruz, Brazil · Supervisor: Dr Claudia Portes Santos
2012	**MSc in Veterinary Science (Veterinary Parasitology)** Universidade Federal Rural do Rio de Janeiro (UFRRJ), Brazil

2010	**BSc in Biology** Universidade Federal Rural do Rio de Janeiro (UFRRJ), Brazil

Fellowships and awards

2019	SPRING-CNRS grant (24 months) for joint research projects
2016 – 2019	Wellcome Trust postdoctoral fellowship, Flatworm Functional Genomics Initiative (FUGI)
2015	CAPES international doctoral fellowship (6 months; proposal written independently)
2012 – 2016	CAPES PhD fellowship (4 years)
2010 – 2012	CAPES-REUNI Master's fellowship, UFRRJ

Research funding

Principal investigator of the ANR CPJ grant “Tropical diseases of today, European diseases of tomorrow” (2022–). In addition, 11 funded projects since 2022: about €310k as coordinator and €1.3M as partner.

FUNDER / PROGRAM	PROJECT (ABRIDGED)	ROLE	BUDGET (€)
CAPES–COFECUB	Epigenetic mechanisms in schistosomiasis host–parasite interactions	**Coordinator**	140,000
Région Occitanie	Aquatic contaminants and parasite virulence (PhD thesis, Paraviroc)	**Coordinator**	70,000
Fiocruz PDSE	PFOA effects on host–parasite virulence (omics, epigenetics)	**Coordinator**	20,000
CAPES-PrInt	Visiting researcher (Marina Mourão)	**Coordinator**	15,000
France–Brazil Embassy	Epigenetics, climate change and infectious diseases (One Health)	**Coordinator**	15,000
UPVD BQR-FREE	Epigenomic and microbiome responses in sea anemones	**Coordinator**	13,000
Fiocruz PDSE	Near-infrared spectroscopy for schistosomiasis diagnosis	**Coordinator**	12,500
CEMEB	Transgenerational effects on snail susceptibility	**Coordinator**	12,500
TULIP	Non-genetic adaptation across the symbiotic spectrum	**Coordinator**	7,000
TULIP	International Training Package	**Coordinator**	4,950
ExposUM	InvaSnails: invasions, climate change and trematodiases	Partner	820,000
ANR	Eliminating schistosomiasis with gene drive	Partner	435,000
FAPESP	Epigenetic mechanisms in relapses of *Plasmodium vivax* malaria	Partner	50,000
CNPq Universal 2025–2027	Emerging contaminants and omics under climate change	Partner	~43,000
CNPq Universal 2024–2026	NIR spectroscopy for schistosomiasis diagnosis	Partner	~37,000
RIVOC	Vector competence in *Pseudosuccinea* / *Fasciola*	Partner	15,000

CNPq budgets converted approximately from BRL. Under evaluation: ANR JCJC “Deciphering the molecular mechanism of paradoxical benefits in parasite infection” (coordinator, €365,000); ANR PRC “Unconventional interactions between schistosomine and VKR receptors” (partner, €250,000).

Supervision

POSTDOCTORAL RESEARCHER · 2026–

Sarah Dametto

UPVD · main advisor

ANR “Tropical diseases of today, European diseases of tomorrow”

PHD · 2024–2027 · ED 305, UPVD

Bertrand de L'Isle

Co-supervised with Christoph Grunau · ANR, Région Occitanie

S. mansoni virulence and environmental change linked to water contamination

TULIP side-project grant (€4,700); president, doctoral student association; lead organizer, Pint of Science Perpignan 2025

PHD · 2024–2027 · ED 305, UPVD

Célia Koellsch-Amet

Co-supervised with Jérôme Boissier · CNRS

Plasmodium yoelii and *S. mansoni* co-infection in murine models, from host pathology to molecules

First prize, best poster, Montpellier Infection & Immunology Meeting 2024; TULIP side-project grant (€5,000)

PHD CO-SUPERVISION · 2022–2026

Isabela Xavier Dutra

Instituto René Rachou, Fiocruz, Brazil · ANR, CAPES, CNPq

Functional analysis of miRNAs in schistosomiasis-transmitting snails and host resistance

Best oral presentation, 17th International Symposium on Schistosomiasis

PHD CO-SUPERVISION · 2024–2028

Lorena Oliveira Souza Soares

ENSP, Fiocruz, Brazil · ANR, CAPES, CNPq

Perfluoroalkyl contaminants and microplastics: a multi-biomarker One Health approach

PHD CO-SUPERVISION · 2024–2028

Augusto Magubeia Francisco

Instituto Nacional de Saúde (MISAU), Mozambique · MISAU, Fiocruz

Epidemiology of schistosomiasis in Murrupula district, Nampula province

MASTER'S STUDENTS AND TRAINEES

- Grégoire Perriguey, Cyril Guillemot (now PhD student at IHPE), Reshma Thachara Kunnath, María Soledad Campoverde – TULIP Graduate School / UPVD; all continued to PhD programs in France, Portugal or the UK
- Current: Laure Durussel (M1 BDD, UPVD) – malaria parasitemia under variable co-infection timing; Josefa D. S. Cruz (Fiocruz) – *B. glabrata* vector competence under thermal stress
- Four Fiocruz PhD students hosted at IHPE for advanced training (LAPSA, Rio de Janeiro; HMM, Belo Horizonte)

Teaching

Master's-level teaching at UPVD in English and French; international postgraduate teaching at Fiocruz, Brazil.

COURSE	LEVEL AND PROGRAM	HOURS
Scientific English 1 (Anglais 1)	M1 BDD, B2I	42 h/yr
Scientific English 2 (Anglais 2)	M2 BDD, B2I, CEEC	10.5–21 h/yr
Ecological communities: parasitism	M1 BDD, B2I	9 h
Tools for population management	M2 BDD, B2I	8 h
Mini-Review and Junior Lab modules	M1–M2, TULIP Graduate School	12–20 h
Hybrid parasitology course (MOOC), Perpignan School of Parasitology	Graduate and professional	32–64 h
Parasite–intermediate host interactions (co-coordinator, since 2023)	Postgraduate Specialization in Vector Malacology, IOC/Fiocruz	40 h

PEDAGOGICAL INITIATIVES

- **MOOC "Systems Biology of Parasites and Disease Vectors"** (creator and coordinator), France Université Numérique, launch September 2026: 28 lectures by 19 experts from the Americas, Africa and Europe
- **AquaACROSS International Summer School,** "Aquatic ecosystems in the face of global environmental change" (co-designer with Claudia Pogoreutz and Lucia Di Iorio), 8–26 June 2026
- **Licence Sciences de la Vie, Darwin track (2027–2032):** co-responsible; Animal diversity and evolution 1 and 2, elective units S4 and S5
- Faculty member, CNRS thematic school UniChromaRNA, Bordeaux (2022); training "Impact of supervision on the doctoral project", CNRS (2023)

Editorial work, evaluation and service

EDITORIAL AND REVIEW

- Associate Editor, *PLOS Neglected Tropical Diseases*
- Reviewer for Scientific Reports, PLOS ONE, PLOS Computational Biology, Chemosphere, Frontiers in Immunology, Toxicology and Applied Pharmacology, and grant agencies
- Scientific committee, International Symposium on Schistosomiasis 2026, Rio de Janeiro

THESIS JURIES AND COMMITTEES

2026	PhD external examiner – V. Valladares C. M. dos Santos, ENSP/Fiocruz
2026	M2 examiner – J. Alves de Souza, IOC/Fiocruz
2026	PhD monitoring committee (CSI) – K. S.-D. Mahaman, INTERTRYP, ED GAIA
2025	PhD external examiner – C. Oliveira da Fonseca, IRR/Fiocruz
2025	M2 examiner – L. Pereira Bezerra, IOC/Fiocruz

2025	M2 / M1 examiner – A. Prévot, T. Snowden, UPVD
2024	PhD committee – L. Oliveira Souza Soares, ENSP/Fiocruz
2023	M2 examiner – M. Dahuron, UPVD
2022	M2 examiner – G. Mayenga Mankezi, UPVD

INSTITUTIONAL RESPONSIBILITIES

- Researcher in charge of the IHPE animal facility; member of the animal welfare body (SBEA); two APAFIS authorizations (2024)
- Maintenance of *Schistosoma* rodhaini, *Plasmodium yoelii* and *Biomphalaria pfeifferi* lines; co-responsible for the molluscarium
- Referent for Europe and International, CNRS Écologie & Environnement, at IHPE; referent for the Societat Catalana de Biologia
- RIVOC+ steering committee; co-lead of the “GT Mollusques” working group; Fiocruz Ambassador network in France

Collaborations and networks

- **France–Brazil corridor:** Fiocruz–UPVD Memorandum of Understanding (celebrated February 2026); IRP-CNRS in preparation with LOMIC, AMAP and IHPE (France) and LAPSA, HMM and the National Reference Laboratory for Schistosomiasis–Malacology (Brazil)
- **Lusophone network:** co-supervision with the Instituto Nacional de Saúde, Mozambique, linking Portuguese-speaking endemic countries to IHPE
- **Africa:** ANR AFZoons and ExposUM ACTS (J. Boissier, R. Galinier); field mission to Benin, February 2025
- **Europe and USA:** P. Brindley (George Washington University; gene drive), C. Grevelding (Justus Liebig University Giessen; histone code), G. Rinaldi (University of Oxford; single-cell multi-omics)
- **France:** D. Schmeller (Toulouse; Pyrenean lake contaminants and trematodes), Solagro, ExposUM InvaSnails, TULIP LabEx

Science outreach

- Grunau C, **Augusto RdC** (2026). Bilharziose en Europe : d’où vient cette maladie parasitaire et comment s’en protéger ? *The Conversation*
- de L'Isle B, Grunau C, **Augusto RdC** (2026). Comment la pollution de l’eau peut modifier les maladies parasitaires qui nous affectent. *The Conversation*
- Videos for WHO World NTD Day (2023, 2025); “Au cœur de l’UPVD #6” (2025)
- Articles in *UPVD Magazine Recherche: INTERSECTIONS* (2024, 2025) and *La Semaine du Roussillon* (One Health, with M. M. Mourão)
- Université du Temps Libre lecture on climate change and health in the Mediterranean basin (2023); Fête de la Science
- Owner of “Ambientalistas em Rede”, an environmental science blog in Portuguese (more than 110,000 Facebook followers)
